DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Zelano on 1/2/2007.

The application has been amended as follows:

Cancel claims 36 – 42.

In claim 31, line 1 of the claim, please delete "A method according to claim 31" and replace with --A method according to claim 51--.

In claim 31, lines 1 - 2 of the claim, please delete "wherein the sodium salt of a compound of formula III-1" and replace with --wherein the compound--.

In claim 32, lines 1 - 2 of the claim, please delete "wherein the sodium salt of a compound of formula III-1" and replace with --wherein the compound--.

In claim 54, line 1 of the claim, please delete "A method of claim 36" and replace with --A method of claim 52--.

Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The closest prior art is considered to be Licha *et al.* (US 6,083,485), which teaches a broad genus of compounds for use in *in vivo* fluorescence imaging. None of the examples in Licha are reasonably close in structure to the claimed compounds that one would be motivated to select the specifically claimed compounds in view of the broad genus of Licha. While the claimed compounds are known compounds, as in Ohno (US 4,839,265), they were previously taught for use in the field of photography, which is non-analogous to Licha's purpose of *in vivo* imaging. Applicant's unexpected results using the sodium salts of the claimed compounds for *in vivo* use are also acknowledged. The provisional obviousness-type double patenting rejections over claims 16 – 22 and 24 – 26 of copending application 10/149,917 and claims 35 – 44 of copending Application 10/324,010 have been withdrawn per MPEP 804(I)B in the instant application because the instant application is the earlier-filed application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
